

# SLOWEAR

## **INTERNATIONAL COMPETITION REGULATIONS**

To take part in the competition, applicants should go to website [www.slow-lifestyle.org](http://www.slow-lifestyle.org) and register by filling in the relative form (indicating name, surname, full address, postal code, town, province, telephone, date of birth and email), confirm your registration and agree to authorize treatment of your personal details.

After logging in, participants should write a short script on the subject of "slow lifestyle" through the special application found on the website. When you have finished, your contribution will be automatically transformed by the site into a real screenplay.

The short scripts on the given theme and conforming to the competition's regulations, will be published in a gallery within two working days. A contestant may only submit one short script during the period of the competition.

The scripts in the gallery may be voted by the website's visitors following registration. Each visitor may only vote once a day. At the end of the competition, the three scripts that receive the most votes will win 3 Slowear outfits.

A selected jury will evaluate the mini scripts received and will decide which represent the best contribution on the basis of originality and creativity, and the author will be awarded the prize.

Contestants must provide correct and true personal details. If this is found not to be the case, the prizes eventually awarded will be considered null and conferred to the first runner up.

Entering the competition is free, with the only exception of Internet connection which depends on the tariffs applied by the customer's operator.

The winners will be informed by email and will be asked, in order to receive their prize, to send a letter of acceptance of the prize and a copy of their valid ID document, within 3 days of receipt of the email, via fax or email to the contact details that will be provided.

If, after three days, we have not received the above documents, the runners up will be contacted with the same procedure as for the winners.

The award will be confirmed following the verification of the correspondence data in the ID documents with that provided upon registration.

Runners up will be called if the winners are untraceable, if they have provided incomplete, incorrect or untrue personal information, if they have sent non conforming documentation or if the documentation was not sent on time.
